

PRESS RELEASE

EXCELPOINT AND LEGEND SILICON TO ENGAGE IN STRATEGIC DISTRIBUTORSHIP AGREEMENT FOR ASIA PACIFIC REGION

Hong Kong, China, 20 November 2007 - Legend Silicon Corporation (LS), a leading fabless semiconductor company that develops technology and products for digital broadcasting and broadband transmission and reception, and Excelpoint Technology Ltd (SGX: Excelpoint), a leading demand creation distributor of advanced technology active components and total solutions provider, today announced that the two companies will form a strategic distributorship engagement for the entire product range of Legend Silicon across the Asia-Pacific region.

“Legend Silicon Corporation is the first supplier of silicon solutions and products for digital terrestrial television in China based on the GB20600-2006 mandatory standard and is a leader in broadband wireless transmission technologies. Legend Silicon’s products can be used for a wide variety of end products and equipment, such as televisions, set-top-boxes, computer peripheral devices, portable televisions, mobile televisions, personal portable multimedia players (PMP) and cellular phones etc; this is our competitive edge in the market. The result of this joint effort will benefit our clients with innovative next-generation technologies and products,” said Albert Phuyay, Excelpoint Chairman and Group CEO.

“Excelpoint has strong demand creation power with its leading Research & Development experience in the television, automotive and telematics, portable multimedia, and cellular phones industries. Its wide distribution network across the Asia Pacific region will push

forward Legend Silicon's technology and products, bringing digital television fixed and mobile solutions to the next level of enhanced viewing experience," added Dr. Stone Shan, Legend Silicon Vice President for Sales.

About Legend Silicon Corp

Legend Silicon Corp is a fabless semiconductor company that develops technology and application-specific standard products (ASSP) for digital broadcasting and broadband transmission and reception. The company is a co-developer of the Chinese Digital Television Terrestrial Broadcasting (DTTB) System Standard (GB20600-2006) and provider of the Standard compliant demodulator products to enable fixed and mobile applications. Legend Silicon has operations in Fremont, Calif., Beijing, Shanghai and Tianjin in China. It also maintains a joint DTV Research Center with Tsinghua University in Beijing.
