EXCELPOINT PARTNERS DIGITAL IDENTIFICATION TO DEVELOP ENHANCED SECURITY SOLUTIONS

- ESPL appointed ASEAN value added partner for Digital Identification Solutions
- Collaboration will provide suite of solutions for e-Government, Banking and RFID applications

SINGAPORE, 4 Jul 2011 – Main board listed Excelpoint Technology Ltd (“Excelpoint” or the “Group”) is pleased to announce that its Singapore subsidiary Excelpoint Systems Pte Ltd (“ESPL”) is collaborating with Digital Identification Solutions (“DIS”) to provide an extended suite of solutions for e-Government, Banking and RFID applications. Corresponding to this new partnership, ESPL will also be signing a contract with DIS to be their value added partner in ASEAN countries .

Being a distributor for NXP identification products, Excelpoint has the ability to provide wafer modules and software application solutions. When combined with the DIS personalized solutions, both companies can now provide a more comprehensive suite of solutions that bring added value to key customers in their respective markets.

Digital Identification Solutions is a global ID Solutions provider and offer secure credential solutions for ID cards and passport/visa applications to meet the needs of companies, associations, governments and authorities.

In recent months, Excelpoint has also announced various new solutions that have been developed and customized products that have been approved for use in correctional institutes in the US as well as the first in the world Intelligent Baby Monitoring Mat that uses fiber optics technology to detect respiratory movements in babies.

Commenting on ESPL’s latest development, Mr Albert Phuay – Chairman and CEO of Excelpoint said: “The partnership with Digital Identification is another important milestone for us as we

make further inroads into devising new e-technology solutions for government and banking industries as well as businesses adopting RFID applications. Our team will certainly benefit from this partnership and tap into new knowledge that can help them further enhance the suite of solutions that they develop for our customers.”

Echoing the same thoughts, Mr Benny Tan, Cluster Director – Asia Pacific & China Region, from Digital ID said: “ Riding on the strong synergies between Digital ID & Excelpoint, we will benefit from this latest collaboration by sharing both our knowledge, product offerings and geographic reach.”

One of Excelpoint’s customer, Mr. Calvin H J Yau, CEO of CTS-Caliber Solutions said: “ We are delighted by the news of this alliance, Excelpoint & Digital ID solutions partnership will be beneficial for new EMV implementation and consultancy. In this way, we will be able to offer to the banks a high quality and reliable personalisation hardware /software supplier that I can trust and I look forward to implementation of the next project with this new strategic alliance.”

About Excelpoint Technology Ltd (Registration No. 200103280C)

Established in 1987, Excelpoint Technology Ltd is a total solutions provider of quality electronics components, engineering designs and supply chain services to original equipment manufacturers (“OEM”), original design manufacturers (“ODM”) and electronics manufacturing services providers (“EMS”) in the electronics industry.

Excelpoint has been working closely with its principals and customers to identify new trends and technologies, and to create and test new technical features that will complement their customers’ products. The Group has three research and development (“R&D”) centres supported by a team of dedicated R&D professionals to create innovative solutions that will help customers go to market quickly and efficiently.
