Date: April 2<sup>nd</sup>, 2020

Subject: COVID-19 Update #2 – Increase in Product Lead-Times

In my first COVID-19 update on March 24<sup>th</sup>, I committed to keep you informed on any change in status with regards to the supply of our power modules. Over the past 2 weeks we have seen many of our key component suppliers increasing their lead-times. To ensure that we meet our delivery commitments, we are asking that you plan around the following:

As of today April 1<sup>st</sup>, all Vicor product lead-times for new orders will be increased by 4 weeks, which depending on the product family means a range of 20 to 24 weeks.

On behalf of Vicor, I continue to wish you and your families the very best and as always thank you very much for your business and support during these very difficult and challenging times.

Phil Davies

Corporate Vice President WW Sales and Marketing
